he fertility of the cotton-producing land of the United States. This report was pre-pared by Trenholm in reply to specific in-quiries submitted to him by Nimmo in mly last, and is now presented as an in oduction to the important and somewha extensive investigation as to the prothe exportation of cotton to foreign mar-ets. Trenholm answers that, under the rior to 1860, great bodies of land not only at the power to produce cotton, but belands have been reclaimed and the general average productiveness of the cotton lands of the country has been increased. He gives statistics of the production of particular tracts and the relation or the crop to the average throughout the cotton belt, to ascertain and sustain his assertion. Trenholm cencludes his report as follows:

is a son of the late George Trenholm, Secretary of the Treasury of the Southern FIRE AT THE CAPITOL. Washington, January 26.—A fire was discovered this morning in a lot of books and records stored under the roof of the House of Representatives. The firemen cut away the wood and soon extinguished the fire, which was confined to a spread the fire, which was confined to a spread to the fire that the whole of the straight and the fire that the whole of the straight and the straigh

the fire, which was confined to a space of less than twenty feet square. The damage was trifling. The fire is supposed to have been started by the electric wires used in labilities the half. ghting the ball. The first discovery that the fire was in

nu pages rushed for the doors, and for a noment they seemed to expect an extension and see a repetition of Saturday's about three miles out of the city. At seeme in the British House of Parliament, there was no water and no way of geting at the fire except up a steep and par- ner, and then threw them out of the row iron staircase ruoning three stories, and left them to their fate. The little upon which two men cannot pass each was thrown into an empty sleigh. upon which two men cannot pass each other. After some delay, however, buckets of water were passed up, and what came dangerously near being a serious conflagration was averted. In the room in which the fire was conflied were stored the records of the first session of Congress, with all the original reports of committees, of proceedings of the House and reports of the various heads of departments, including some valuable reports dated 1790. The close proximity of the fire to these volumes rendered it most mirroculous that they were not burned.

They could never have been replaced, and the girls had very little clothing about their persons. The little girl managed to reach the house of her mother and told the story of ill usage. A party at once started to the scene of the atrocity, a mile or so distant, and reached the other girl to find her in a dying condition. Every part of the body was inzen. She was taken to her mother's house and every effort put forth to save her life. The little girl was enceints, and month. The police have arrested the records of the trocity, a mile or so distant, and reached the other girl to find her in a dying condition. Every part of the body was inzen. She was taken to her mother's house and every effort put forth to save her life. The little girl was enceints, and month. The police have arrested the records of the trocity, a mile or so distant, and reached the other girl to find her in a dying condition. Every part of the body was inzen. She was taken to her mother's house and every effort put forth to save her life. The little girl was enceints, and would have become a mother in about a month.

Carty each was in consultation with the enumers of the River and Harbor Committee to-day relative to the proposed impropriated \$2500 to cover the expense of the propriated \$2500 to cover the expense of the propriated \$2500 to cover the expense of the propriated \$2500 to cover the expense of the expense of the country of
